Session by Session Adherence to Protocol Scale:

Adherence: For each item, place an X next to tasks that occurred in the session and put an O next to tasks that didn't. This is an assessment of the intervention, not you. We are trying to understand how the intervention happens in real-world settings, so please be honest. It is important for the study to have an accurate picture of what actually happened in each session.

- _____ 1. Reintroduces self.
- _____ 2. Reviews symptoms of depression and general adjustment.
- _____ 3. Assesses whether relationship or communication difficulties, and if so how they relate to her mood.
- _____ 4. Focuses on identified problem areas
