

Fertility Forum

October

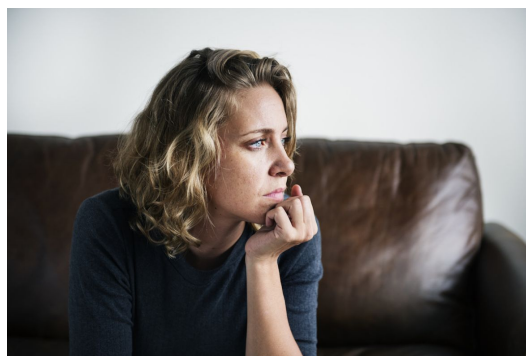

Our New Director, Dr. Jennifer Eaton

She has an extensive background in reproductive endocrinology and previously has been a medical director. Dr. Eaton's interests include third-party reproduction such as oocyte (egg) donation and surrogacy, polycystic ovary syndrome, endometriosis, and fertility preservation. She will begin seeing patients in November.

Pregnant women in their first trimester can participate in a study that aims to learn the effects COVID-19 can have on expectant mothers and their babies.

Research shows about 5% of women have two or more consecutive miscarriages and 1% will have three or more. We initiate an evaluation after two miscarriages.
